***Project***

Do you want to be part of the development and start-up of one of Canada's premier mining operations? We are looking for dynamic individuals to join our team and live in our community as we pursue this exciting project. The Rainy River Project, located 65 km northwest of Fort Frances, ON, contemplates a combined open pit and underground mine, processing 21,000 tonnes per day.

***Department***

Maintenance

***Tasks***

The role of the Heavy Duty Mechanic is to ensure effective operation of various mine equipment by maintaining, troubleshooting and repairing components where required and to carry out all duties in a safe and efficient manner.

- Maximize equipment availability through efficient and proactive preventative maintenance programs.
- Perform preventative maintenance such as inspections, lubricating, oil changes and failure analysis.
- Diagnose faults and malfunctions and carryout necessary repairs including major component replacement and repair or rebuild.

- Comply with all Safety, Health, Environmental and other policies, procedures and requirements.
- Test repaired equipment for proper performance.
- Maintain a safe and clean work environment.
- Ensure work order discipline requirements within SAP.
