Project

Do you want to be part of the development and start-up of one of Canada's premier mining operations? We are looking for dynamic individuals to join our team and live in our community as we pursue this exciting project. The Rainy River Project, located 65 km northwest of Fort Frances, ON, is a combined open pit and underground mine, processing 21,000 tonnes per day.

Department

Mining

Tasks

The Project Engineer will be well rounded in open pit operations and engineering. The Project Engineer will be responsible for the coordination of efficient and safe mining operations involving production, pit maintenance, and technical services.

- Coordinating with Mine Supervisors in production fleet allocation to optimize fleet utilization;
- Compiling shift, daily, weekly, monthly and quarterly productivity statistics;
- Contributing to and implementing efficient pit blasting, dewatering, mine drainage system, road construction & dump construction;
- Making recommendations and carrying out decisions on pit productivity, and other production related projects as assigned.

Requirements

- Must be willing to relocate to the Rainy River District located in Northwestern Ontario
- Degree in Mine Engineering with eligibility for P.Eng. registration with the PEO;
- 5 years' experience working in a open pit mine with strong knowledge of Ontario mining legislation;
- Open Pit drill and blast experience is considered a strong asset;
- Experience working at a remote work site is an asset;
- Experience in a cross cultural work environment;
- Proven commitment to health, safety and the environment;
- Excellent listening, interpersonal, written and oral communication skills;
