

Job Posting Title

Warehouse Technician (3 Positions)

Posting Date

April 12, 2017

Application Deadline

May 3, 2017

Company

New Gold is a Canadian intermediate gold mining company listed on the Toronto Stock Exchange (TSX) and the New York Stock Exchange (NYSE MKT) under the symbol NGD. At New Gold, our values drive every decision and action we take:

Integrity: Do what's right

Creativity: Lead with innovation

Commitment: Deliver

Develop our employees: Commitment to personal development

Teamwork: Leverage our collective skills

New Gold is committed to ensuring that all Applicants are able to participate equally in relation to New Gold's recruitment, assessment and selection materials and processes. New Gold encourages all Applicants with disabilities to let their New Gold recruitment contact know if they require accommodation during the recruitment process. For more information on New Gold's compliance with the Accessibility for Ontarians with Disabilities Act, 2005, please visit our website at <http://newgold.com/LegalNotice/default.aspx#sixteen>.

Project

Do you want to be part of the development and start-up of one of Canada's premier mining operations? We are looking for dynamic individuals to join our team and live in our community as we pursue this exciting project. The Rainy River Project, located 65 km northwest of Fort Frances, ON, contemplates a combined open pit and underground mine, processing 21,000 tonnes per day.

Department

Other

Tasks

The role of Warehouse Technician is to ensure the efficient operation of all warehouse activities. Ensure all activities are carried out in conformance with New Gold's policies and procedures including cultural, safety and environmental.

- Ensure warehouse housekeeping and all activities are carried out to a standard that is conducive to creating and maintaining an injury free workplace.
- Provide efficient and timely services to customers and interfacing departments to meet or exceed the needs of the business.
- Work with the Inventory Analyst and Environment Department to ensure that correct procedures for the handling and storage of hazardous materials are established and closely monitored.
- Operate materials handling equipment in a safe manner.
- Ensure all documentation for materials and equipment leaving the site is completed and approved and that all goods leaving the site are inspected and documented.
- Organize inventory to ensure easy and safe accessibility.
- Conduct inventory counts to verify the stock on hand
- Maintain strong communications links and good working relationships with all customers and interfacing departments assisting others to meet the business objectives
- Attend warehouse and safety meetings.
